

INDUSTRIAL EQUIPMENT AUCTIONEERS

THINKING OF SELLING?

Contact us to see how we can help.

Every auction is unique, and we would love the opportunity to help you explore available options and tailor an auction to fit your specific situation.

We specialize in onsite liquidation auctions, offering a full service package and handling everything from start to finish. We have a cataloging crew to set up the auction, our full team to ensure success on auction day, and finally a load-out crew to finish the job.

For consignors, we have sizable warehouse capacity to store your items for the next, best opportunity to sell.

We are also having good success with running online-only auctions, while including offline bidding options for members of the plain community.

As always, we are grateful for the opportunity to work with both buyers and sellers, and to get to know many new friends along the way.

SPECIALIZING IN LIQUIDATIONS

ANNUAL EVENTS
